

Construct		Performance Measure	Numerator	Denominator	Type of Measure
1	Preterm Birth	Percent of infants (among mothers who enrolled prenatally before 37 weeks) who are born preterm	Number of live births born before 37 completed weeks of gestation and after enrollment	Number of live births after enrollment who were born to mothers enrolled prenatally before 37 weeks	Systems Outcome
2	Breastfeeding	Percent of infants (among mothers who enrolled prenatally) who were breastfed any amount at 6 months of age	Number of infants aged 6 months (among mothers who enrolled prenatally) who were breastfed any amount at 6 months of age	Number of infants aged 6 months (index child among mothers who enrolled prenatally) during the reporting period	Systems Outcome
3	Depression Screening	Percent of primary caregivers who are screened for depression within 3 months of enrollment (for those not enrolled prenatally) or within 3 months of delivery (for those enrolled prenatally)	For those not enrolled prenatally, number of primary caregivers who are screened for depression within the first 3 months since enrollment; for those enrolled prenatally, the number of primary caregivers screened for depression within 3 months of delivery	For those not enrolled prenatally, the number of primary caregivers enrolled for 3 months during the reporting period; for those enrolled prenatally, the number of primary caregivers enrolled for three months post delivery during the reporting period	Performance Indicator
4	Well-Child Visits	Percent of children who received the last recommended visit based on the AAP schedule	Number of children who received the last recommended well child visit based on the AAP schedule Schedule: 3-7 days, 2-4 weeks, 2-3 months, 4-5 months, 6-7 months, 9-10 months, 12-13 months, 15-16 months, 18-19 months, 2-2.5 years, 3-3.5 years, 4-4.5	Number of children enrolled in home visiting	Performance Indicator
5	Postpartum Care	Percent of mothers enrolled prenatally or	Number of mothers enrolled prenatally or within 30 days of	Number of mothers who enrolled prenatally or within 30 days of	Performance Indicator

		within 30 days after delivery who received a postpartum care visit within 8 weeks of delivery	delivery who received a postpartum visit with a healthcare provider within 8 weeks of delivery	delivery and remained enrolled for 8 weeks after delivery during the reporting period	
6	Tobacco Cessation Referrals	Percent of primary caregivers who reported using tobacco at enrollment and were referred to tobacco cessation services by 3 months post enrollment	Number of primary caregivers who reported using tobacco at enrollment and were not already receiving tobacco cessation services and were referred to tobacco cessation counseling or services within 3 months of enrollment	Number of primary caregivers who reported using tobacco at enrollment and were not already receiving tobacco cessation services and were enrolled for 3 months during the reporting period	Performance Indicator
7	Safe Sleep	Percent of infants that are always placed to sleep on their backs, without bed-sharing or soft bedding	Number of infants (aged less than 1 year) whose primary caregiver reports that they are always placed to sleep on their backs, without bed-sharing or soft bedding	Number of infants who were aged less than 1 year during the reporting period	Performance Indicator
8	Child Injury	Rate of child injury or ingestion-related visits to the ED since enrollment	Number of parent-reported nonfatal injury or ingestion-related visits to the ED since enrollment among children	Number of children (index child) enrolled in home visiting	Systems Outcome
9	Child Maltreatment	Percent of children with at least 1 investigated case of maltreatment following enrollment within the reporting period	Number of children with at least 1 investigated case of maltreatment since enrollment	Number of children enrolled in home visiting	Systems Outcome (DCFS data)
10	Parent-Child Interaction	Percent of primary caregivers who receive an observation of caregiver-child interaction by the home visitor	Number of primary caregivers who receive an observation of caregiver-child interaction by the home visitor using the HOME	Number of caregivers enrolled in home visiting	Performance Indicator

11	Early Language and Literacy Activities	Percent of children with a family member who reported that during a typical week any family member(s) read, told stories, and/or sang songs with the child daily, every day	Number of children with a family member who reported that during a typical week any family member(s) read, told stories, and/or sang songs with their child daily, every day	Number of children enrolled in home visiting	Performance Indicator
12	Developmental Screening	Percent of children with a timely screen for developmental delays using the ASQ-3	Number of children with at least one screening within the AAP-defined age groups during the reporting period Ages: 9, 18, and 24- or 30-months	Number of children reaching the specified time frame during the reporting period	Performance Indicator
13	Behavioral Concerns	Percent of post-natal home visits where primary caregivers were asked if they have any concerns regarding their child's development, behavior, or learning	Number of post-natal home visits where primary caregivers were asked if they have any concerns regarding their child's development, behavior, or learning	Total number of post-natal home visits during the reporting period	Performance Indicator
14	Intimate Partner Violence Screening	Percent of primary caregivers who are screened for IPV by 6 months post enrollment	Number of primary caregivers who are screened for IPV within 6 months of enrollment	Number of primary caregivers enrolled in home visiting for 6 months during the reporting period	Performance Indicator
15	Primary Caregiver Education	Percent of primary caregivers who enrolled without a HS degree or equivalent who subsequently enrolled in, maintained continuous enrollment in, or completed HS or equivalent	Number of primary caregivers who enrolled in, maintained continuous enrollment in, or completed a HS degree or equivalent after enrollment during the reporting period	Number of primary caregivers without a HS degree or equivalent at enrollment who have not met the conditions of the numerator in prior reporting periods	Systems Outcome

16	Continuity of Insurance Coverage	Percent of primary caregivers who had continuous health insurance coverage for at least 6 consecutive months during the reporting period	Number of primary caregivers who reported having health insurance coverage for at least 6 consecutive months since enrollment during the reporting period	Number of primary caregivers enrolled in home visiting for at least 6 months during the reporting period	Systems Outcome
17	Completed Depression Referrals	Percent of primary caregivers referred to services for a positive screen for depression who receive one or more service contacts	Number of primary caregivers who received recommended services for depression	Number of primary caregivers who had a positive screen for depression within 3 months of enrollment (for those not enrolled prenatally) or within 3 months of delivery (for those enrolled prenatally) and were referred for services and did not meet the conditions of the numerator in prior reporting periods	Systems Outcome
18	Completed Developmental Referrals	Percent of children with positive screens for developmental delays who receive services in a timely manner	Number of children who a) received individualized developmental support from a home visitor; b) were referred to EI services and received an evaluation within 45 days; OR c) were referred to other community services and received services within 30 days	Number of children with positive screens for developmental delays who did not meet the conditions of the numerator in prior reporting periods	Systems Outcome
19	IPV Referrals	Percent of primary caregivers with positive screens for IPV who receive referral information to IPV resources	Number of primary caregivers who received referral information to IPV resources	Number of primary caregivers with positive screens for IPV within 6 months of enrollment and did not meet the conditions of the numerator in prior reporting periods	Performance Indicator
